GREENSBORO FEMALE COLLEGE.

The New Catalogue—Additions to the Faculty.

The city of Greensboro and Methodists throughout North Carolina have long had cause to be proud of that splendid and honored institution—Greensboro Female College. Never, perhaps, in its history of fifty-one years of usefulness has this college been capable of more efficient and thorough work in all its branches than at the present time.

An energetic, practical man, President Peacock, zealous for the best interests of the college, has gathered about him a faculty of which any institution might well feel proud. They are specially prepared and peculiarly adapted to the work assigned to them.

The Telegram acknowledges the reciept of a copy of the new catalogue for 1897-'98 and announcement for 1898-'99. It comprises an attractive, neatly printed and well arranged book of seventy-nine pages and should be read and studied by every patron and friend of this noble institution. This catalogue shows a total enrollment of 161 pupils the past year. In the music department there were 122; art department, 39; elocution, 54; business course, 34. The book is replete with valuable information and any one interested can secure a copy by addressing President Dred Peacock, Greensboro, N. C.

The faculty for the ensuing year has undergone a change in four departments and of the new members, principally, we will speak in this article. The old members are well and favorably known and need no words of commendation at our hands. The new members are:

REV. T. A. SMOOT, A. B.

The chair of science and philosophy is to be filled by Rev. T. A. Smoot. He is not an entire stranger to our people. While yet a young man, Mr. Smoot ranks high as a scholar, profound thinker and eloquent preacher. In securing his sesvices, Greensboro Female College is to be congratulated. He is one of North Carolina's brightest and most promising young men. He is a native of Iredell county, was prepared for college at Oak Institute in that county, entered Trinity in 1891 and graduated with the degree of A. B. in June 1895. For two years he was headmaster of Trinity High school and resigned that position to to take a special course at Vanderbilt University. He will fill the chair to which he has been called ably and acceptably.

MRS. N. F. SHELTON.

The department of English Language and Literature will be in charge of Mrs. N. F Shelton, of Tennessee. Mrs. Shelton was educated at Nashville and is now principal of the Cumberland (Tenn.) University Annex. This department, in her charge, will be kept up to its high standard of excellence.

MISS MARY O. BLACK.

This institution is honored in that an alumnae of the college is to have charge of the piano and voice culture department. Miss Mary O. Black has received three diplomas from this institution, has had three years experience in graduate work and two years in teaching. Pupils in this department are fortunate in this selection.

MISS RACHEL SIMS.

Miss Rachel Sims has been selected for the department of elocution and physical culture. She is a native of Durham, N. C., was educated in Washington, D. C., and later pursued her studies in Boston, where she is now spending the summer. The work will not suffer under her care.

The school of music is under the direction of Prof. J. W. Parker, who is assisted by a corps of able and competent teachers. Prof. Parker has for sometime filled this position in the college and his faithfulness and ability are recognized. He is capable in every respect and is doing efficient service.

The college library is the pride of President Peacock, who in speaking of it says: "We have every history of the state that has ever been published." There is no doubt about the fact that this library contains the best collection of information along this line in existence.

The Ethel Carr Peacock reading room was established in 1894 by Mrs. Dred Peacock in memory of her little daughter. A beautiful room was immediately furnished by the directors and the library now numbers something like 5,500 volumes, a large number of which have been added by Dr. Peacock the past year.

The Telegram, with other friends of the college, congratulates the management upon the close of another successful year and rejoices with it in the splendid prospects for a bright future of increased usefulness. The historical sketch of the college with which the catalogue closes is worth your attention and you will feel prouder of the institution for having read it.

MEANING OF TODAY'S ACTIVITY

Sampson's Fleet Off the North Coast of Cuba,

NOTHING MORE FROM DEWEY.

Warships Off Cape Haytien—Accused Spaniards of Cowardice—Vice-President Capote Captured.

While for prudential reasons sufficiently apparent the war department declines to make known any intended moves advices from the most trustworthy sources indicate that the invasion of Cuba will be made at several different points.

Transports have been provided for about 30,000 troops at the various gulf and South Atlantic ports. Whether Santiago de Cuba will be the objective point of one of the corps of invasion is necessarily conjectural for the present.

The force equipped and available for the invasion is estimated at 20,000 regulars and 13,000 volunteers. This force is stationed, for the most part, at Tampa. In addition there is a force of 40,000 volunteers at Chickamauga ready to move and it is understood that this will occupy the points vacated by the invading column.

Eight of the best equipped regiments have been ordered from Chickamauga to Tampa at once. Whether these regiments will accompany the expedition or take possession of the camp at Tampa until other volunteer regiments are prepared to join them is not known.

It does not appear now that Porto Rico will be occupied before Cuba as was stated some days ago. The squadron under Cervera being cooped up and the reserve squadron still at Cadiz it will be possible for Sampson to convoy the transports to Cuba and afterward intercept the Cadiz fleet before it can reach San Juan.

The report that Schley will force the entrance to Santiago and attack Cervera in the harbor is perhaps purely conjectural. Such a course would forfeit the strategic advantage of the American commander's position. The alternative course of blocking the channel would appear the more probable. Santiago, however, is the second city of Cuba in importance and its reduction may be considered necessary to the complete subjection of Cuba. The possibility that the blockading squadron may be scattered by a a storm allowing Cervera to escape will doubtless lead to decisive steps to prevent such an eventuality.

The censorship of news will be more rigidly enforced until the expeditions have been landed and in the interim only meagre reports may be looked for.

FRIENDLY SENTIMENTS.

By Cable THE TELEGRAM.

Paris, May 31—Foreign Minister Hanotaux, in announcing the commercial agreement of the cabinet this morning remarked that the arrangement was indicative of friendly sentiments between France and America.

NOTHING FROM DEWEY.

Hong Kong, May 31—No news has been received here from Manila today.

SIGNALLING FORBIDDEN.

Port au Prince, May 31—The authorities at Mole St. Nicholas have forbidden signalling to any ship.

CAMARA "DELAYED" AGAIN.

Gibraltar, May 31—Advices from Cadiz say that the forts there are mounting heavier guns. Admiral Camara's departure has been delayed again owing to defects in some of the torpedo boats of his squadron.

KEEPING CABLES HOT.

Kingston, Jamaica, May 31—Commodore Schley and President McKinley are constantly cabling and important movements are hourly expected.

CUBAN VICE-PRESIDENT CAPTURED.

Key West, May 31, (10 a. m)—There seems to be little doubt that the Spaniards have captured Vice-President Capote of the Cuban republic. The vessel in which he embarked accompanied by his escort has been found beached at Cape Masi.

Cape Masi is the extreme eastern point on the Windward passage and is about 75 miles distant from Mole St. Nicholas, Hayti, for which point Vice-President Capote is supposed to have been making.

SUCCESSFUL EXPEDITION.

Key West, May 31—The Florida expedition was a complete success. Five hundred Cubans were landed and are now with Garcia. A large quantity of arms and ammunition was also landed. The Spaniards were completely out-witted and not a shot was fired. The Florida and her convoy the Osceola have returned.

WILL HE WAIT?

Washington, May 31—Every effort of the administration is being directed to the matter of getting orders to Commodore Schley to postpone the attack on Santiago and Admiral Cervera until Admiral Sampson and troops arrive. It is feared that Schley will not wait.

PASSING ST. NICHOLAS.

New York, May 31—A despatch to the Post from Cape Haytien says: Gunboats report sighting five American warships passing Mole St. Nicholas.

WHERE SAMPSON IS.

Aboard despatch boat off Cruz del Padro, Monday 30—Admiral Sampson rejoined the fleet here this morning. Officers of the fleet are confident that Schley has cooped up Cervera in the harbor of Santiago de Cuba and are expecting orders to co-operate in an attack.

Cruz de Padro is an island off the north coast of Cuba about 100 miles east of Havana and some twenty miles from the mainland.

THE VESSEL ASHORE.

Boston, May 31—The Boston fruit company has received a cablegram stating that its large steamer Belvidere is ashore at Cape Masi, eastern end of Cuba. The vessel is probably a total wreck and the fate of the passengers is unknown. The company says that Vice-President Capote of the Cuban republic was aboard the wrecked vessel.

FEW VISITORS.

Washington, May 31—President McKinley spent a quiet day, few visitors being received.

NOTES FROM HIGH POINT.

The Local News from Our Neighbor Briefly Told.

TELEGRAM BUREAU. HIGH POINT, N. C., May 31, '98.

Tom Rice, of the University, was in the city last night.

Miss Minnie Shepard went to Burlington this morning.

J. L. Sechrest is spending the day in Greensboro.

Lawyer Bradshaw was in the city today.

Miss Nellie Bowman went to Scottsburg, Va., today to visit relatives.

Mrs. M. H. Shiplet who has been visiting in Thomasville, returned home today.

Miss Mamie Richardson, who has been spending a few weeks in Greensboro, returned home this morniag.

Mrs. A. J. Owen will leave in the morning with her brother, Edgar Widby, for a visit to her parents in Lenoir.

Mr. and Mrs. Will Payne who have been visiting relatives in the city left for their home in Mosco, Idaho today.

Miss Annie Ragan, of Archdale, came up this morning on her wheel.

Mrs. P. B. Hackney and Prof. J. T. Davis, of Guilford College, passed through yesterday returning home from Asheboro.

We are glad to see Miss Annice Wheeler out again after a weeks illness.

J. A. Turner one time a resident of this city but now of Huntington, W. Va., is spending a few days in the city.

Misses Fannie Myers, of Thomasville, was a visitor to the city this morning.

Ed Smith, of Winston, who has been down to see his father returned home this morning. Mr. Smith is about the same.

Mrs. N. W. Sapp and charming daughter Miss Zora, is spending the day in the city.

A Tandem, Not a Bicycle.

W. A. Wingate and Clarence Bogart went out on the former's new tandem last night without the required lamp and this afternoon they were cited to appear before His Honor, Mayor Nelson for riding a bicycle without a light. Bogart says that the way out of the charge is plain and easy: they were riding a tandem not a bicycle. His Honor's decision in the case will be awaited with interest.

Female Highway Robbers.

Policemen Whittington and Pearce last night arrested Ellen Powell and Georgia McGibbony, two colored women, who are charged with highway robbery. It is claimed that on last Saturday evening they knocked a boy in the head and robbed him of eighty-five cents. Judge Robinson will probably diagnose their case and prescribe for them next week.

POLICY OF DELAY CHANGED

President Tells the Cabinet he is for Immediate Invasion.

SCHLEY TO WAIT FOR SAMPSON.

Is it Cuba or Porto Rico?—The Volunteer Regiment—Reinforcements and Supplies for Garcia.

By Wire to THE TELEGRAM.

Washington, May 31—Indiana congressmen this morning called on President McKinley with a request to appoint Lew Wallace a major general of volunteers. In the meeting of the cabinet this morning it was evident that the president's policy not to send an army to begin operations against Havana before autumn had been changed and his objections to an immediate invasion met and overcome.

Members of congress generally express the opinion that Havana is at this season a mere pest hole and that Americans will die faster from disease than from Spanish bullets.

Ambassador Hay has informed the state department that the following resolutions were unanimously adopted by the Churchmen's Union, of England:

Reesolved, that this meeting of liberal churchmen extends its fullest sympathy to the president and citizens of the United States in their efforts to secure good government for Cuba and trusts that in future years the ties of blood and brotherhood between America and Great Britain will be constantly strengthened.

LEAVING CHATTANOOGA.

Chattanooga, May 31, (10:32 a. m.)—Early this morning the 69th regiment of New York volunteers received orders to move to Tampa immediately.

ORDER TO GENERAL LEE.

Washington, May 31—It is rumored here that General Lee has been ordered to hurry from Tampa to Jacksonville. The reason for this order is not given.

YELLOW JOURNALS OR CIGARETTES?

Washington, May 31—Augustus W. Stowe arrived here this morning. He announced that he would be inaugurated president at 10 o'clock and would invade Spain immediately. He was arrested.

MEANS BUSINESS.

Washington, May 31—An order directing eight regiments to go to Tampa from Chickamauga is construed as meaning that the government contemplates the occupation of both Santiago de Cuba and the province of Porto Rico without unnecessary delay. The number of men included in this order is eight thousand to be composed of the best troops in the volunteer army.

IS IT PORTO RICO?

Washington, May 31—The impression is growing that Porto Rico is the objective point of the invading expedition. If this is the case Sampson will protect the troops through the Windward Passage. McKinley is determined to occupy Porto Rico before Spain can sue for peace.

COLONEL APPLETON DENIES.

New York, May 31—Colonel Appleton of the seventieth New York regiment denies that his regiment has been ordered to the front.

A WRATHY SEA CAPTAIN.

Key West, May 31—Captain Merlin, of the British steamer Restormel, captured by the St. Paul and sent to this port, says that his failure to land his cargo of coal at Santiago de Cuba was due to the cowardice of the Spaniards.

The New Company.

The organization of the new company is progressing as well as could be expected, say the men at the head of the movement. There is some talk of a combination with the squad organized by Simpson Schenck though no definite action has been taken as yet. It is not thought there will be any difficulty in having the company mustered in despite the determination of the war department to recruit the companies already organized up to 104 men instead of organizing new companies. Governor Russell is understood to have declined to accede to this arrangement. Julius Price who is interested in raising the company has gone to his old home in Virginia to secure recruits. In regard to the company being organized by Simpson Schenck the impression has gone abroad that its officers have been already elected. This is a mistake. It was the home guard company, not the volunteer company that elected officers. Officers of the latter are still to be chosen.

BOTTOM DROPPED OUT.

A Great Surprise to Those Anticipating Advances.

By Wire to THE TELEGRAM.

Chicago, May 31—The bottom dropped out of the May wheat deal this morning. Instead of the price booming to two dollars per bushel on the final day of delivery of May contracts and before the delivery could be made at the price which closed Saturday, one dollar and seventy-five, it opened this morning at one dollar and forty. Fifteen minutes later it was a dollar and twenty-five.

It is a big smash and a great surprise to those who were anticipating a sensational advance. It indicated the shorts which were covered through the private settlements since Saturday with Leiter. July wheat is seven cents below Saturday's closing.

LEITER'S PROFITS.

Chicago, May 31—Leiter's profits on the May wheat deal is estimated at seven million dollars.

Court Next Week.

Guilford county Superior court will convene next Monday with Judge Robinson on the bench. This will make three successive terms of court over which Judge Robinson has presided in this county. According to the plan of rotation it will be a long time before he will visit us again, and according to the determination of the voters of the state he will never, after the expiration of the present term, have the opportunity of visiting us again in the capacity of judge.

If Cervera does not "live to fight another day" it will not be his fault.

There is such a thing as being altogether too shrewd, even in naval warfare.

Senor De Lome is now in a position to utter some customary sentiments on the fickleness of fame.

When balloons are put to use in the navy Mr. Eugene V. Debs should be forcibly enlisted as a marine.

With the thermometer at 110 in the shade Schley's ships should be prepared to give the enemy some hot stuff.

It is now in order for Mr. Long to produce a despatch, sent days and days ago, ordering Schley to shut up Cervera in Santiago harbor.

Admiral Cervera seems to have forgotten that harbors have not proved an especially fortunate place for Spanish ships to meet the enemy thus far in the war.

John Wanamaker will have finished his little tussle with Senator Quay in time to get in under the second call—meantime he will supply any uniforms needed by the volunteers at mid-summer prices.

France not only has good will in her bosom for America but she absolutely oozes with it. In season and out of season she showers us with it. We are assured that the French press is a liar—and we take the liberty of suspecting that the French diplomat belongs in the same category.

Free silver? Yes, we are for free silver, first, last, and all the time, but we are not so absorbed in free silver as to lose sight of all the other demands enunciated at Ocala and St. Louis.—Home Rule.

How highfalutin our populist brethren are becoming! Democrats and republicans are content to make demands but the populist patriot is utterly miserable unless he can "enunciate" them.

If the climate of Cuba is so deadly it is strange that newspaper men should have been able, as a number have been, to campaign for a considerable time with Gomez and Garcia without a single one, so far as reported, succumbing. Other Americans have spent much time on the island, have journeyed into the interior and returned sound and well. Probably there as elsewhere proper precautions will serve to keep the troops in a fairly healthy condition.

At a time when the proposed alliance with England is receiving so much attention the following from the Toronto Globe is worthy of perusal:

It is not necessary that the improved relations between Great Britain and the United States should take the form of an alliance, of a treaty in black and white, in articles and codicils. It is not necessary that the republic should involve itself in wars in India or in South Africa. A question may arise in which the English-speaking communities may fight side by side for a common cause. But in the meantime all that is required is the steady growth of friendly feeling between the nations whose relations are so close. There must be either friendship or danger of hostility. There cannot be indifference."

All signs point to an early invasion of Cuba. So long as Cervera was on the seas with a squadron sufficiently powerful to threaten communication with the main land any army thrown into Cuba would have incurred the risk of being cut off from its base of supplies. Now however that danger is past. The voluntary army also has been gotten into some sort of shape to render assistance to the small force of regulars available for use in Cuba. The war department has been compelled to create an army as well as equip it and the volunteer system involves delays other than that of securing enough volunteers in the aggregate as the experience of this state has shown. Altogether the delay has been unavoidable and perhaps wise as well.

In England all American newspapers are held to be "yellow" and from time to time we have been patronizingly informed that no despatches from American news agencies are printed without first verifying them, at least not in the more important papers. Yet the date lines of the papers for the past few weeks will show that the most lemon-hued despatches printed are specials to London papers cabled back to this country. For instance the morning papers here published the news that yesterday the Spanish squadron was at Santiago but the London Times said:

Private information from the most trustworthy sources indicated that Admiral Cervera's squadron is not at Santiago de Cuba, but is in Central American waters.

And thus it has been from day to day, though European correspondents are permitted in Cuba and Porto Rico while Americans of course are not.

A CHARIOT RACE.

The Latest Example of Ben Hur is Capt. Vanderford.

In these expensive times of war Uncle Samuel is looking closely after his revenue. Capt. Vanderford of the revenue force came in from Salisbury this morning and reported an amusing experience he had there yesterday. He was driving along a quiet street when he saw a negro approaching in a buggy. The negro also saw him and began with some haste to conceal something in his buggy. Capt. Vanderford halted and asked what cargo he had aboard. Instead of heaving to the captain of the craft put on a full head of steam and started to run the blockade or with the blockade at any rate. Capt. Vanderford turned and gave chase and the race was on. The chasee turned the corner with a skill and intevidity that would have made his fortune in the days of the emperors. When the populous part of the town was reached the racers were accorded an ovation and for a mile or so the procession was triumphal. Finally the negro was overhauled and a keg of the pure white found in the buggy. It came from a registered distillery and now others than the driver are in trouble.

And He Went to Ride.

Yesterday afternoon about four o'clock one Walter Davis, who had imbibed to the high pressure mark with "reeking red" fire water, took his stand, or rather tried to stand at the C. F. & Y. V. South Elm street crossing, and raised his voice to a high key, cursing and swearing at a 21.6 knot gait. Policeman Jordan was bearing down upon him, but he saw him not. It didn't even require a shot accross his bow to cause him to heave to. The big policeman hailed a carriage and carried Mr. Davis to ride, ending up at the city prison.

The True Remedy.

W. M. Repine, editor Tiskilwa, Ill., "Chief," says: "We won't keep house without Dr. King's New Discovery for Consumption, coughs and colds. Experimented with many others, but never got the true remedy until we used Dr. King's New Discovery. No other remedy can take its place in our home as in it we have a certain and sure cure for coughs, colds, whooping cough, etc." It is idle to experiment with other remedies, even if they are urged on you as just as good as Dr. King's New Discovery. They are not as good, because this remedy has a secord of cures and besides is guaranteed. It never fails to satisfy. Trial bottles free at C. E. Holton's drug rtore.

So Tired! So Tired!

Chronic Dyspepsia!

For ten years I had been a severe sufferer from chronic dyspepsia, which was pronounced incurable. I was completely run down, and in the summer season was not able to do anything and spent a great part of the time lying down. I could not touch meat of any kind, or any solid food whatever, as I could not digest it at all and had to live on crackers and light diet. I was very nervous, would have severe nervous spells, and could not get any oatural sleep, I was so restless. I suffered all the time from chronic dysentery, which kept me weakened down. That was my condition when I determined as a last resort to try Mrs. Joe Person's Remedy. I had tried so many treatments and so many patent medicines without benefit that I had no faith in anything and had almost made up my mind not to try another thing, when Mrs. Person came to my house last April and induced me to try her Remedy. I bought 1 dozen bottles. Felt no relief whatever until I was on the fourth bottle, when I knew I was getting better. I became stronger, got so I could sleep well and there was no necessity for me to lie down in the day time. I took twenty-two bottles before I stopped. My digestion is now perfect, and I can eat meat, vegetables, and anything else I want, and as much as I want. When I commenced the Remedy I weighed 98 pounds, now I weigh 115 pounds. Dysentery perfectly cured, and it is all owing to Mrs. Joe Person's Remedy. It is everything claimed for it.

Something to Depend On.

Mr. James Jones, of the drug firm of Jones & Son, Cowden, Ill., in speaking of Dr. King's New Discouery, says that last winter his wife was attacked with la grippe, and her case grew so serious that physicians at Cowden and Pana could do nothing for her. It seemed to develop into hasty consumption. Having Dr. King's New Discovery in store, and selling lots of it, he took a bottle home, and to the surprise of all she began to get better from first dose, and half dozen dollar bottles cured her sound and well. Dr. King's New Discovery for consumption, coughs and colds is guaranteed to do this good work. Try it. Free trial bottles at C. E. Holton's drug store.

John Sherman's Supply of Whiskey.

George A. Sheridan, the campaign speaker, used to tell a story to illustrate the abstemious habits of John Sherman. "We had," he said, "been making speeches at Xenia one wet, cold night, and on our way back to the hotel Senator Sherman said: 'Sheridan, I believe a little whiskey is a necessity for us to prevent contracting colds.' It is almost needless to say that I agreed with him, and expressed my regret that I had none with me. 'Don't worry about that,' said the senator, 'I have an ample supply. We will go to my room and get it.' We went to Senator Sherman's room, and he produced from his valise a four-ounce vial of whiskey and a teaspoon. Pouring out a teaspoonful he gravely handed it over to me, telling me to take it, as he had no doubt I needed it. After I had indulged in the one spoonful, Sherman took a teaspoonful himself, recorked the little bottle and returned it to his valise."—Boston Evening Transcript.

Rival Choir Singers in Jail.

There is a church at Utica, Ind., that has a choir in which it delights. The members of this choir have long had a friendly rivalry, but it has of late developed into something stronger. Since then the members of the choir have been trying to drown one another out. Crate Morrow and a young man named Lewis possessed very powerful voices. So did William James and Lewis's brother.

Last Sunday the factions started in to drown one another out. Morrow and Lewis sang the louder, and as a result there was a row after church. All four were arrested and were sent to Jeffersonville, where they were tried. Justice Hall decided that Morrow and Lewis were to blame and gave them ten days in jail.—Louisville Evening Post.

A Virginian Country Store.

A glance at the walls and the showcases made it plain that one store was enough for the village, writes Bradford Torrey in The Atlantic. You had only to ask for what you wanted—a shotgun, a revolver, a violin case, a shovel, a plug of tobacco, a pound of sugar, a coffeepot, a dress pattern, a ribbon, a necktie, a pair of trousers, or what not.

The place was like a beehive; customers of both sexes and both colors going and coming with a ceaseless buzz of gossip and bargaining, while the proprietor and his clerks—two of them smoking cigarettes—bustled to and fro behind the counters, improving the shining hour. One strapping young colored man standing near me inquired for suspenders, and, on being shown them, selected without hesitation (it is a good customer who knows his own mind) a brilliant yellow pair embroidered or edged with equally brilliant red. And having bought them at an outlay of 12 cents, he proceeded to the piazza, where he took off his coat and put them on. That was what he had bought them for. His taste was impressionistic, I thought. He believed in the primary colors.

More Than Laconic.

"Henrietta," said Mr. Meekton, "you know you said almost two hours ago you were going to tell me just how much you thought the average man amounted to."

She turned upon him a look of silent inquiry.

"You have said absolutely nothing since then."

"Well," she answered, "that's what I think he amounts to."—Washington Star.

To clarify vinegar and even muddy wine pour into a bottle of it half a teacupful of fresh, sweet milk and let the whole stand for 24 hours. As the sediment will settle to the bottom with the curdled milk the clear liquid may then be poured off into another bottle.

A REMARKABLE RECORD.

An Old Veteran Who Proves That Wounds Do Not Always Kill.

In the city yesterday was John T. Poe from Oak Ridge township, an old Vet of the Twenty-second regiment. His history is unique. As to wounds—we have never seen or heard of another such instance. He was wounded by musket ball at Fredericksburg, by shell at Ox Hill, by bayonet and sabre at Falling Waters, and in another battle had all his upper teeth shot out by musket ball, thus it seems he was wounded by every arm used.

He says he will not volunteer in the Spanish-American war, but if you will give him grey clothes and face him towards the Potomac he is ready to try it again.

He is a democrat from away back. He killed the man who bayonetted him with the butt of his gun and lifted the cavalryman who stuck him with his sabre out of his saddle on his bayonet—these are the only men he knows he killed. He fought at FirstManassas with a double barrel shot gun, but he armed himself then and there with a Federal rifle. He surrendered at Appomattox.

Unexaggeration

Probably there is no temptation so illusory, so insistent and so perilous that can beset a business house, as the seeming advantage to be derived from exaggeration.

Extravagance of statement seems to be palatable. It is entertaining; it flatters, it captivates, but it is self-deceiving.

The quickest and most certain way in which we can point out its danger is to call your attention to the fact that exaggeration once begun, knows no limit. Where is it going to stop? Today the exaggerator must tell a bigger, stronger story than yesterday; tomorrow, a bigger, stronger one than today, and so it goes on.

Beside being untrue, and invalid, and conveying a wrong impression, it is weak, cowardly and mean to exaggerate; while its being utterly unnecessary and thoroughly disreputable, goes without saying.

Nearly everyday we go to the public with business assertions, grounded upon our character, watched by our reputation. It is absolutely impossible for one of those assertions to contain a particle of exaggeration. They have merchandise quality to vouch for them, and our quality to hold them to their pledges. Hence, if you have any occasion, at any time, to illustrate an argument that the principle and policy of sterling truth make the most successful business, you can point to us and point to our doings and sayings as proof.

We have been rushed the entire week with eager buyers. The same
